How to travel by public transport in Lisbon

The city of Lisbon is served by a network of modern public transportation which provides excellent mobility both within the city center and its surrounding suburbs. Of this, the **Metro** is significant with its four lines that connects the river front, the north of the city and the suburbs of Amadora and Odivelas. The stations are open between 6:30am and 1:00am.

Other ways to get around the city are **tram**, **bus** and **funicular** which are all operated by Carris. As well as the routes which provide transportation between the center of the city and the historical area there are also special services for tourists and visitors with mobility difficulties. Do remember it is always cheaper to buy tickets and passes before the journey. For better mobility Carris and the Metro have created several passes to travel on both companies.

Lisboa Tickets and Travel Cards:

- Bus (1 journey), Tram (1 journey), Funicular (2 journeys)
 - Travel ticket Carris/Metro: (one hour)
 - Daily ticket Carris/Metro: (24 hours)
 - Zapping: Carris/Metro, boats and trains. (Rechargeable ticket)
-
- All tickets are for individual use only and are not transferrable.
 - Ticket validation is mandatory.
